

This year's microgrid will feature the use of hydrogen to power microgrids, featuring a fuel cell generator and a bi-directional charging EV. Get a preview of the build at Grid Edge Theater (which will be ...

Our goal for the Shenzhen-Macao 2025 Symposium on Microgrids is to continue our exchange of results from microgrid research, demonstration, and deployment worldwide with an emphasis on recent ...

The Grid Edge Theater Microgrid demonstration featured high-performance DC-coupled power conversion & management, AC/DC & Fault Managed Power, and PoE LVDC load management, ...

November 3 - Microgrids are being developed across the U.S. as new data centers drive up power demand and companies and communities seek reliable power supplies and protection against ...

The microgrid demonstration is part of the Grid Edge Theater at RE+. Each year, different technologies are used in the microgrid, and highlighted based on industry trends.

The \$4.63-million microgrid project will power two water wells on the Hopi Reservation in northeast Arizona. The microgrid will be powered by solar and battery storage in an area without grid access.

Visit the Grid Edge theater, register for a microgrid workshop, and network with hundreds of microgrid leaders, experts, and enthusiasts all under one roof! Add these experiences to your week at RE+ 25! ...

Explore the leading trends, challenges, and opportunities shaping microgrids in 2025. Discover how energy leaders can drive innovation and market growth.

To achieve our Community Microgrid vision, the Clean Coalition is designing and staging numerous Solar Microgrids at critical community facilities, which will be ready to connect to larger Community ...
