

AI-ready solutions for research institutions and hospitals. Scalable, energy-efficient data centers designed for AI and high-density workloads. Deploy scalable, secure computing solutions designed ...

Delta InfraSuite Datacenter management system featuring modular racks and accessories for customizing datacenters for mission critical applications.

Discover how UI Health and Panduit transformed a high-density data center with innovative power distribution, enhancing efficiency, reliability, and scalability

Cabinet systems that use a modular, holistic approach to integrating thermal and power management facilitate cost-effective scalability for data centers to support increasing rack power densities while ...

Data centers built five years ago struggle to cool 10kW per rack. Today's AI workloads require a minimum of 40kW, with next-generation deployments aiming for 250kW. The gap between ...

The Huawei IDS1000-A is highly integrated small-capacity container data center solutions, which integrated all systems in one container, including power supply & distribution, cooling, IT cabinets, ...

SmartRack® Modular Data Centers are composed of IT rack, cooling and service enclosures that together form a performance optimized data center, or POD. This innovative design enables easy ...

Uniteam's Data Center Container 40 ft HC transforms a ISO shell into a fully featured data center. Factory-built and pre-tested, the module ships with power, cooling and security systems integrated. ...

The Vertiv(TM) DCE Rack System is designed to meet the flexibility, ease of installation, and delivery requirements of modern data centers, and is available in pre-configured or customized builds.

Discover our Data Centers & Server Room power protection, precision cooling, and IT equipment racks for industrial applications, small businesses, and homes.
