

My buddy Andrew Wang and I compiled this list of flow battery and related companies over the last few years, now making it public in the hopes of potentially integrating it with FBRC one ...

The US flow battery startup Quino Energy aims to repurpose old oil tanks for low cost, long duration clean energy storage.

Our iron flow batteries work by circulating liquid electrolytes -- made of iron, salt, and water -- to charge and discharge electrons, providing up to 12 hours of storage capacity. ESS Tech, Inc. (ESS) has ...

A new iron-based aqueous flow battery shows promise for grid energy storage applications.

The all-iron liquid flow battery uses neutral ferrous chloride as the active material. It is low-cost, environmentally friendly, has high energy density, and has obvious resource advantages.

ESS Tech, Inc. (NYSE: GWH) is the leading manufacturer of long-duration iron flow energy storage solutions. ESS was established in 2011 with a mission to accelerate decarbonization safely and ...

Discover 10 Flow Battery Companies & Startups to Watch in 2026 and their cutting-edge solutions! From saltwater and aluminum-CO2 designs to sustainable redox chemistries and ...

This company overview profiles the startups and innovators in flow battery and covers the features and highlights of their technology.

What is a flow battery made of? Who makes flow batteries? Check out our blog to learn more about our top 10 picks for flow battery companies.
