

At the heart of the a.s.r. Smart Car Park is a sophisticated DC microgrid, the first of its kind in a commercial setting in the Netherlands. This system connects 96 solar panels directly to three bi ...

It is Prologis' first microgrid in Europe and a scalable blueprint for other constrained sites, with its modular design that can be tailored to local conditions. Similar configurations are in use by ...

We have been involved from the ground up, starting with a feasibility study and acquiring special regulatory exemptions to develop a private microgrid.

A new report funded by the Dutch government finds that microgrid technologies could make a local "techno-economy" 90 percent self-sufficient, through the decentralised sharing of ...

Schneider Electric offers efficient microgrid solutions based on a combination of Edge Control Systems, Connected Products, Applications, Analytics, and Services. Connected Products include ...

The Amsterdam Area is setting the pace for transitioning into a greener, more sustainable future. At the core of this transformation lies smart grid technology, a revolutionary way for clean ...

Amsterdam is transforming a former industrial neighbourhood into a low-carbon, smart Positive Energy District with mixed uses.

At the heart of the a.s.r. Smart Car Park is a sophisticated DC ...

A study commissioned by the Dutch Ministry of Economic Affairs and the Netherlands Enterprise Agency is monitoring the performance of three microgrid projects in Amsterdam and one ...

Discover the most comprehensive and up-to-date insights with the Commercial Microgrid Market Report.

This will require radical changes to how the country's energy system works, and this report sought to find out what the potential is for Smart Integrated Decentralised Energy (SIDE) systems, a highly ...
