

Another photovoltaic enterprise sprints to the GEM

In 2024, the photovoltaic industry will start a brutal knockout. In this context, a new energy performance is likely to fluctuate. This has been reflected in its performance over the past few years.

Gemini is an innovative solar + energy storage project located just 30 minutes outside of Las Vegas. The project is carefully sited on less than 5,000 acres of land and generates enough reliable clean energy ...

On December 26, Zhejiang Jingyang Mechatronics Co., Ltd. (Hereinafter referred to as "Jingyang Mechatronics" or the company) submitted a prospectus (declaration) for initial public offering and ...

On June 30, 2022, the foundation laying ceremony of Huayao Optoelectronics 10GWN-type high-efficiency photovoltaic module and 10GW heterojunction battery project was held in Jintan District, ...

Tandem PV has a bright idea: Develop solar panels that are both thinner and more efficient. One Silicon Valley solar disruptor just landed \$50 million to make ultra-thin and efficient solar...

The patented technology of TOPCon, a Chinese photovoltaic enterprise, was purchased.

The Company's business covers photovoltaic grid-connected inverters, photovoltaic energy storage inverters, energy storage batteries, etc.". On June 16, 2022, First Airlines New Energy submitted its ...

Source: Announcement of the Company By the end of 2022, the annual production capacity of PV film of the Company reached 201.0624 million square meters, and the capacity ...

According to the agreement, Jingke Energy will supply components for the sixth phase of the Foris Photovoltaic Project of the Saudi Arabian Public Investment Fund contracted by China ...

Primergy Solar and Quinbrook Infrastructure Partners on July 18 announced that the Gemini Solar + Energy Storage project, which will provide power to Las Vegas, Nevada, and other ...
