

Argentina has received more than 1.3GW of energy storage applications for its first battery energy storage system (BESS) tender.

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

AES is the world leader in lithium-ion-based energy storage, both through our business project and joint venture, Fluence. We pioneered the technology over one decade ago, and today almost half our new ...

The first large-scale battery energy storage tender in Argentina is catching the attention of the international community as an unequivocal step towards modernizing power infrastructure.

Analysis, reports, news and interviews about your industry in English, Spanish and Portuguese. The opportunities include energy storage, power generation and critical minerals, the...

Aimed at enhancing grid reliability in the metropolitan area of Buenos Aires (AMBA), this \$500 million initiative marks one of the country's most significant moves toward integrating large ...

The Argentine Renewable Energy Chamber (CADER) is set to formally update its institutional name to explicitly include energy storage among its strategic priorities. While keeping its ...

The international tender, first announced in February, aimed to secure 500 MW of energy storage capacity for critical points in the Buenos Aires Metropolitan Area (AMBA) grid.

Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target.

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for ...
