

Until just a few years ago, talking about energy storage in Argentina was little more than an expression of intent. Today, that opportunity has moved beyond an abstract promise and has ...

The international tender, first announced in February, aimed to secure 500 MW of energy storage capacity for critical points in the Buenos Aires Metropolitan Area (AMBA) grid. In a strong ...

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for ...

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Argentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its original 500-MW ...

Argentina has taken a decisive step toward modernising its electricity infrastructure with the conclusion of its first large-scale battery energy storage tender, awarding 667 MW of capacity --a ...

The AlmaGBA initiative, Argentina's largest battery storage procurement scheme, had already topped its initial aim by awarding contracts for 667 MW of sites. The energy authority noted ...

Argentina has awarded 667MW of battery energy storage system (BESS) in its first tender under the AlmaGBA scheme.

Argentina has successfully concluded its first battery energy storage tender, awarding 667 MW of capacity - around 30% more than the originally planned 500 MW - due to strong industry ...
