

With the continuous rise in demand toward clean energy in Vietnam, EPC Solar has established itself as one of the leading EPC contractors, with over seven years of experience in the ...

A 40-foot solar battery container that's powering 60% of operations while they navigate bureaucracy. These modular systems aren't just band-aid fixes - they're becoming permanent fixtures in Vietnam's ...

Recent developments of the regulatory framework governing solar power projects in Vietnam, as discussed below, highlight the country's commitment to renewable energy and its efforts ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Discover the Mobile Solar Container, a versatile and portable solar power unit designed for remote locations and off-grid applications. Ideal for construction sites, disaster relief, and outdoor events, it ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

The containerized mobile foldable solar panel is an innovative solar power generation device that combines the portability of containers with the renewable energy characteristics of solar panels.

Vietnam's energy demand is skyrocketing--but mobile solar container projects are emerging as a cash-positive solution for factories, farms, and remote communities.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

The mobile solar containers and portable solar chargers are designed with easily foldable solar panels which makes them ideal for remote areas and versatile applications like mining, construction, events ...
