

Azpilsan has been operating in the field of battery production and energy storage solutions in Azerbaijan since 1993. With 30 years of experience, we are recognized as the region's leading battery ...

The deployment of systems of this scale will be a first not only in Azerbaijan but across the entire CIS region.

Azerbaijan has ushered in a new era in its energy sector with the launch of large-scale Battery Energy Storage Systems (BESS) to accelerate the integration of renewable ...

Portable Energy Storage Devices are compact, rechargeable systems that store and release electrical energy to use when that energy is needed. Notable types of portable energy storage devices (PESD) ...

As part of this strategy, the country has launched large-scale projects to build advanced energy storage facilities using Battery Energy Storage Systems (BESS).

Azerbaijan has ushered in a new era in its energy sector with the launch of large-scale Battery Energy Storage Systems (BESS) to accelerate the integration of renewable energy sources.

Azerbaijan is turning over a new leaf in the energy sector with the rollout of large-scale Battery Energy Storage Systems (BESS), paving the way for a swift leap forward in renewable ...

Construction and manufacturing of system components are underway. These systems of this scale will be the first not only in Azerbaijan but also across the CIS. The implementation of BESS ...

Construction is underway on some of Central Asia's largest battery energy storage projects, while financing has been secured for what is described as the region's first integrated wind ...
