Blueprints for the station (dated from 1891) have been preserved by the Lebanese University in Beirut and are available online. Per the university, the passenger station last served clients in 1976.

Beirut and Damascus were first connected by telegraph in 1861 and by a macadam road in 1863. Syrian railways connecting the two cities (90 mi or 140 km over the crest of the Mount Lebanon range) or another port were planned as early as 1871 but were not enacted. In 1889, the Ammiyya Revolt broke out among the Druze and other Syrian farmers. The Ottoman response to the insurrection included a number of railway con...
