

Belgian grid operator Elia announced the results of the nation's 4th Capacity Remuneration Mechanism (CRM) auction, selecting ENGIE's 100 MW Battery Energy Storage System (BESS) project in Kallo.

ENGIE has officially completed both phases of its 200 MW battery energy storage system (BESS) at Vilvoorde, Belgium. The 800 MWh installation, composed of 320 lithium-ion battery ...

Similar to last year, battery energy storage systems (BESS) made up almost all new-build capacity selected in recent Capacity Remuneration Mechanism (CRM) auctions in Belgium.

The auctions form part of the amendments made to Belgium's power capacity mechanism approved on Tuesday by the European Commission. The amendments were proposed ...

Auction in T-1 and T-4 up to 2024, plus T-2 as from 2025. Technology agnostic (derating factor). Volume fixed every year by Belgian Authorities based on TSO recommendation. Payback mechanism in case ...

Belgian capacity auctions catalyze 1.1 GW of battery Over the past four auction rounds, a total of 13 new large-scale BESS projects were selected, with ENGIE, Storm, and GIGA Storage securing the ...

Battery storage secured nearly all new-build capacity in Belgium's latest capacity market auctions, cementing its central role in the country's power supply plans through 2030.

Big projects like Green Turtle act as strategic assets that bolster grid resilience, enable higher renewable penetration, and reduce reliance on imported fossil energy.

According to Aurora Energy Research's tally, the dominance of battery storage in Belgium's procurements is pronounced. Nearly all new capacity contracted in the 2025 auctions ...

New-build battery storage projects from three developers totalling 357MW were among resources awarded contracts in Belgium's latest capacity market auction. Belgian grid operator Elia ...
