

Extra thick 18 gauge welded construction means our outdoor cabinets are heavy duty and stable. Marine grade 316L stainless steel exteriors and 304 stainless steel interiors insure the ultimate corrosion ...

Safety storage cabinets for passive storage of lithium-ion batteries according to EN 14470-1 and EN 1363-1 with a fire resistance of 90 minutes (type 90) - fire protection from the outside-in.

Discover the most durable outdoor cabinets for harsh climates. Learn about weatherproof materials like stainless steel, HDPE, and aluminum for lasting performance.

The Outdoor Type 3 cabinet platform is designed for a variety of applications and can be tailored to fit your specific needs. This solution has a unique cube design that give flexibility to easily have various ...

\*All aluminum frame chassis provides corrosion-free life \*Double wall construction (sandwich technology) allows maximum heat dissipation by low influence of sun irradiation and offers maximum ...

Our cabinets are made of Marine Grade HDPE, also called high-density polyethylene. HDPE is a type of plastic that's sustainable, durable and resistant to weather damage.

These cabinets are constructed using high-quality materials and fortified with secure locking mechanisms, tamper-evident seals, and intrusion detection systems to deter unauthorized entry.

Ideal for outdoor and washdown applications, the 4X series adds corrosion resistance (via stainless steel or non-metallic materials) on top of NEMA 4-level protection. This makes them perfect for ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids.
