

Invinity Energy Systems plc (AIM: IES) (AQSE: IES) (OTCQX: IESVF) manufactures vanadium flow batteries for large-scale, high-throughput energy storage requirements of business, ...

To assure stable, long-term access to vanadium feedstocks for electrolyte manufacturing, the Company is developing novel hydrometallurgical processes to extract vanadium from the titanomagnetite ...

Invinity Energy Systems is pleased to announce that the Company's Canadian partner Elemental Energy has officially commenced operation of its 8.4 MWh Invinity VS3 vanadium flow ...

Alpharetta -based Stryten Energy has landed a joint venture with a Toronto -based supplier of vanadium, securing domestic supply for a key element used in next-generation batteries.

Vanadium redox flow battery firm Invinity Energy Systems has expanded its manufacturing facility in Vancouver to 200MWh of annual capacity.

Vanitec is the only global vanadium organisation. Vanitec is a technical/scientific committee bringing together companies in the mining, processing, research and use of vanadium and vanadium-containing.

During the visit, discussions focused on the impact of technologies like Invinity's vanadium flow batteries on British Columbia's economy, export diversification, and job support.

LG Energy Solution announced on the 6th that it has decided to independently operate a battery factory established in Ontario, Canada, through a joint venture with Stellantis, one of the U.S. Big ...

VanadiumCorp Resource Inc. seeks to produce a reliable stream of high-quality vanadium electrolytes for the expanding international market for long-duration Vanadium Flow Batteries (VFB).

To date, e-STORAGE has deployed more than 7 GWh of battery energy storage solutions across the United States, Canada, the United Kingdom, and China. Our team is the heart of our success, and ...
