

Under Dr. Qu's leadership, we have grown into one of the world's largest solar photovoltaic products and energy solutions providers, as well as one of the largest solar power plant developers globally.

e-STORAGE offers its own proprietary LFP battery SolBank, comprehensive EPC services, and innovative solutions aimed at improving grid operations, integrating clean energy, and contributing to ...

Through our innovative solutions, we aim to optimize grid operations, promote clean energy integration, and foster a more resilient and sustainable energy landscape. Click and visit e-STORAGE website to ...

Our container systems are designed to run without intervention in harsh and remote terrain. They include full environmental safeguards: they're insulated, ventilated and can be heated or cooled as ...

Solar power equipment, custom solar power systems, and expert Canadian-based support for homeowners, businesses, agriculture, remote applications, and more across Canada.

Whether for residential or commercial use, our expert team ensures reliable and efficient solar solutions. Contact us to speak with our off-grid installation experts.

We design a customized off-grid container solution tailored to your requirements. Our expert team constructs the container, integrating cutting-edge solar technology. We deliver a fully operational ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

EP Cube Wins Japan's Prestigious Good Design Award, Leading the Future of Home Energy Storage with Exceptional Design Today, Canadian Solar's residential energy storage system EP Cube stood ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.
