

Learn how the World Bank-funded Comoros Solar Energy Access Project is building solar plants to provide stable, renewable power and drive economic growth.

We invite qualified consulting engineering firms to contribute to the Comoros Solar Energy Access Project, a World Bank-supported endeavor aimed at constructing interconnected photovoltaic power ...

This World Bank-funded initiative is a key part of the country's broader strategy for sustainable development and lower carbon emissions. The project will significantly boost renewable ...

The Government of Comoros wants to improve the supply and storage of solar on its islands and is inviting applications for the development, operation and maintenance of multiple PV plants with a ...

The solar plant will provide a reliable, renewable energy source for Moroni, the capital, and nearby regions, reducing dependence on fossil fuels, cutting carbon emissions, and improving the quality of ...

The Government of Comoros wants to improve the supply and storage of solar on its islands and is inviting applications for the development, operation and maintenance of multiple PV plants with...

Discover how Comoros is leveraging solar energy production to overcome energy poverty while exploring innovative solutions tailored for island nations. This article breaks down the technical ...

On April 19, 2025, the Comoros took a major step toward its energy transition with the inauguration of the Kwambani ya Washili solar power plant. This project aims to contribute to the country's ambition ...

Delivery of 40,000 meters is expected for July 2024 and 60,000 meters for August 2024. Completion of the upgrade of SONELEC's management information system is scheduled for October 2025. MW of ...

The Abu Dhabi Fund for Development (ADFD) has inaugurated a 6.3-megawatt solar power plant in the Comoros, funded with AED 25.7 million (US\$7 million).
