

Distributed Energy Network Cabinet with Constant Temperature and Humidity

TDG YUNET dedicated to provide integrated energy products and solutions worldwide, to establish a platform, including source, network, load and storage with globalized integrated energy service system.

Flexible Deployment: Modular design allows flexible cabinet expansion; IP54 protection rating ensures suitability for various outdoor applications. Versatile Control Strategies: Supports peak shaving and ...

Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, ...

Our cabinets can be fitted with or without climate control and are engineered for efficiency, offering precise temperature regulation to prevent overheating. Whether deployed indoors or in rugged ...

Designed specifically for harsh outdoor environments, the 42U Outdoor Network Cabinet offers outstanding protection against environmental factors such as rain, snow, dust, and UV rays.

Our temperature-controlled electrical cabinets feature weatherproof, waterproof designs for 19" server racks, fiber distribution & cell tower equipment. Trusted by telecom operators for reliable climate ...

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready.

Outdoor network cabinets featuring integrated surveillance, cooling, and power supply with a waterproof design.

DDB unlimited offers NEMA climate controlled wide outdoor enclosures in various heights and depths, as well as in NEMA 3, 3R, 4 and 4X types.
