Shop etrailer for RV solar panels, controllers, batteries, and inverters. Complete kits, expert guides, and trusted recommendations for every RV type.

Solar panels are the heart of your RV solar system. They're usually mounted on the roof and made of silicon cells that generate DC electricity when hit by sunlight.

If you mostly camp in campgrounds, a small solar setup will do. However, if you enjoy boondocking in remote locations, you may want to invest in a more robust system.
