

The Edwards Signaling BC-1 Battery Cabinet is a durable and efficient storage solution designed to house batteries for fire alarm systems, emergency lighting, or other security and signaling systems.

Secure the power supply of emergency lighting in the entire building or specific areas with a powerful central battery system instead of self-contained batteries in all individual luminaires.

A central battery system from our WFZB series supplies power from a safe area to emergency luminaires in potentially explosive atmospheres and to those areas which are not potentially explosive.

Concealite's Central Battery Systems design is for remote lighting head projects. State-of-the-art design and rugged construction are built-in to assure many years of dependable service.

For use with frame-ins: LF8 1/TRT, LF8 2/TRT, LF8 2/DTT, LP8F, CCR82, LF6 1/TRT, LF6 2/DTT and LP6F. Specify option EL or ELR when ordering. Construction EL: Emergency battery pack with ...

Four CBL models are offered to supply from 100 to 1,000 watts emergency power. Less than 25 watts power consumption in standby mode. Batteries are readily accessible for inspection and ...

Eaton's DualGuard-S is a central battery emergency lighting system with 230 V AC / 220 V DC power supply, automatic monitoring and an external colour display.

All our standard 90 minute inverters are listed as UL 924 "Emergency Lighting Equipment", and are NFPA 101 compliant. Each inverter model is easy to install, and many boast of an industry-leading ...

Four CBL models are offered to supply from 100 to 1,000 watts emergency ...

Specifically designed for emergency lighting applications where space is limited and features all the high performance, low maintenance features of the EMEX Power range.

The Sure-Lites LED Emergency Battery Pack EBPLEDL series allows LED luminaires to be used for emergency lighting when power fails. When a power failure occurs, the EBPELDL switches the ...
