

The SolaX ECC Energy Control Center provides advanced communication, remote maintenance, and efficient energy management with Wi-Fi, 4G, Ethernet, supporting RS485 for seamless integration.

The Global System Platform (GSP) supports engineering professionals. © 2026 WTWH Media, LLC. All rights reserved.

Schneider Electric USA. Browse our products and documents for Energy Control Center - Energy Control Center (ECC)

The high-voltage control box of the energy storage system is a high-voltage power circuit management unit specially designed for the energy storage system. It is an intermediate unit connecting the battery cluster ...

High-efficiency energy storage, smart energy. Explore the innovation Product Center and open up a new future for green energy. IMAX-ECC AC Converter Cabinet. Used for collecting, distributing, and managing AC ...

With the Energy Control Center (ECC) from Schneider Electric™, you can optimize on-site distributed energy resources (DERs) for sustainability and savings while the utility grid is operational.

The ECC provides a modular, scalable way for you to distribute and control electric power flow between the electric utility grid, distributed energy resources (DERs), and the electrical loads at a site.

It is designed to simplify and optimize the integration of Distributed Energy Resources (DERs)--like generator (Genset), solar photovoltaic (PV) and Battery Energy Storage Systems (BESS)--that are used to manage, ...

Your Complete 4-in-1 Residential Green Energy Solution.
