

European supplier of 10kW mobile energy storage containers

Where does SSE Renewables operate?

SSE Renewables operates across the United Kingdom, Ireland, Continental Europe, and Japan. ENGIE UK is a utility company and Independent Power Producer (IPP) specializing in renewable energy generation, flexible energy storage, and energy supply solutions for businesses.

What is mobile energy storage?

Mobile energy storage provides a clean alternative to diesel generators for locations with no grid connection or only a weak one. Grid congestion creates increasingly long waiting times for companies who want to increase their grid connection. Mobile energy storage is the temporary solution to keep your business running.

Is Alfen mobile energy storage sustainable?

Alfen's mobile energy storage products are sustainably produced, fully recyclable, and ensure zero emissions on-site. Mobile energy storage provides a reliable power solution that is easy to operate and robust enough to withstand harsh conditions. Perfect for temporary energy needs.

How can Europe increase the share of renewables in its energy mix?

Despite this impressive achievement, Europe continues to set ambitious targets to further increase the share of renewables in its energy mix. Launched in 2022, the REPowerEU plan outlines bold goals for 2030. To meet these targets, the EU is creating supportive frameworks for renewable energy through policies, regulations, and investment.
