

Foreign water and wind dual-purpose generator

DuoGen is a combined water and wind generator that can be easily reconfigured to harness the kinetic energy in either a water stream or a wind stream in order to produce electricity.

The invention has the beneficial effects that: the water flow generator adopts different driving modes to generate electricity, the condition that the hydroelectric generator cannot generate...

The DuoGen is purpose designed to provide a truly practical solution to battery charging on cruising yachts. DuoGen's dual mode capability allows the same machine to operate as a wind powered ...

The Natures Generator Portable 1800 Watt Solar and Dual Wind Generator Kit brings together our Nature's Generator Gold System and Two Nature's Generator Wind Turbines! This system provides ...

One of the standout features of this turbine generator is its ability to harness both wind and water to generate power. The dual-purpose nature of this product means that you have multiple ...

F03D9/00 -- Adaptations of wind motors for special use; Combinations of wind motors with apparatus driven thereby; Wind motors specially adapted for installation in particular locations

Dual Wind/Water Application: Equipped with six aerodynamic blades that start rotating in light breeze or gentle water flow. Ideal for low hydraulic head conditions or slow-moving streams

Wind and Water Dual Purpose Turbine Generator Outdoor Generator 12v USB Charger FIRSTRATE888 (4500) 99.2% positive
