Does Generac offer a standby power system?

Generators for business: Generac offers businesses with multiple standby power solutions including gas- and diesel-fueled, bi-fuel and modular power systems. Its single generators offer up to two megawatts of power, while its paralleling systems allow for multiple units to be installed together, offering standby power of up to 7,000 watts.

What if a customer has a repeated problem with Generac?

The customer was given additional context that the repeated issue would likely tie to a non Generac device. The customer refused to conduct/consider any further troubleshooting with Generac. Generac is not able to offer the customer a reimbursement or replacement. I understand this is not the resolution requested from the customer.
