

These LONGi 445W bi-facial modules feature 35mm anodized aluminum alloy frames resilient enough to withstand 5400Pa load and 25mm hailstones at the speed of 23 m/s. Another positive attribute of this ...

Featuring advanced bifacial technology, this solar panel maximizes energy production by capturing sunlight on both sides of the module, ensuring optimal efficiency whether you're connecting directly ...

The Longi 445W bifacial solar panel delivers a power output of 445 watts, optimized for residential and commercial solar applications. Its bifacial design increases energy generation by capturing reflected ...

In this section, we will provide a comprehensive overview of the datasheet for the Longi 445w solar panel model. We will explore the key features, technical specifications, and performance indicators, ...

LONGi panels are built to withstand harsh Canadian environment. The 445W panel also supports easy integration with grid-tie inverters and battery storage systems, making it versatile for both off-grid and ...

LONGi 445 Watt Mono Solar Panel - LR4-72HPH-445M o EcoDirect sells LONGi Solar Panels at the lowest cost. Order Online or Call Us! 888-899-3509.

Featuring M6 Gallium-doped wafers, 9-busbar half-cut cells, and a durable anodized aluminum alloy frame, this panel ensures a high power output of up to 460W and a maximum efficiency of 21.2%.

The Longi 445 Watt Solar Panel is a 144 cell module with high efficiency and low LID mono PERC cells. Half-cut Multi Busbar Technology improves performance and boosts production of the solar panel.

modification accordingly. LONGi have the sole right to make such modification at anytime without further notice; Demanding party shall request for the latest datasheet for such as contract need, and make it ...

LONGi LR4-72HBD 445w is a model that uses a number of technologies to bring durability and performance to the next level. This module takes full advantage of half-cut cell technology for ...

More Power Output  
Optimized Design For Higher Reliability  
A Panel That Can Handle Hail, Wind and Snow  
30 Year Power Warranty  
Product Details  
A 35 mm frame made from anodized aluminum alloy and 2 mm layer of protective tempered glass make this module resistant to the foulest of weather. These panels pass a hailstone test where they take on 1? hail grains at the speed of 51 mph. The front side of the modules can resist a 5400 Pa load, and the back side 2400 Pa. See more on a solar store  
Length: 82.5in  
Voltage (VOC): 49.4V  
Rated Power Output: 445  
Width: 41in.
