

To avoid these harms to the environment and public health, parties responsible for construction of solar farms must obtain construction stormwater permits under the Clean Water Act ...

These limits come through outright bans, moratoriums, construction impediments and other conditions that make green energy difficult to build. The impediments come as a gigantic effort ...

At least 15% of counties in the U.S. have effectively halted new utility-scale wind, solar, or both, USA TODAY found. These limits come through outright bans, moratoriums, construction ...

A U.S. construction company that built solar farms across the country will pay \$2.3 million in penalties to settle claims that it violated federal and state water protections in Alabama, Idaho and ...

The construction of four US solar farms violated the Clean Water Act, showcasing the challenges of building a clean power grid.

For each state, we created an overview of current and past state law on the placement and regulation of wind and solar power, and a list of counties that currently have blocks.

Local governments across the U.S. are blocking new clean energy plants. See the best locations for wind and solar power, and where it's being stopped.

BOSTON (May 21, 2024) - The U.S. Environmental Protection Agency has settled with Navisun, LLC, a solar energy company based in Hingham, Massachusetts, for alleged violations of the Construction ...

Across America's power grid, there's a growing gap between what we need and what we'll allow. As the planet warms and climate disasters grow more costly, the U.S. has set a target to reach ...

The Department of Justice and the Environmental Protection Agency (EPA) today announced settlements with four separate solar farm owners to resolve alleged violations of the ...
