

## IoT Base Stations Using Canadian Power Cabinets with IP67

This highly scalable and certified IP67 solution is capable of resisting the harshest environmental factors including moisture, dust, wind, rain, snow and extreme heat, supporting LoRaWAN<sup>®</sup> applications in virtually ...

Deploy scalable NB-IoT base stations and eNBs with NB-IoT Pro to power industrial IoT systems across North America's B2B landscape. NB-IoT Network Infrastructure forms the essential backbone of narrowband IoT ...

This flexible solution provides durable, low-power, wide area network connectivity in support of M2M and IoT applications for both LoRa service providers and individual enterprises wanting to expand their LoRa ...

View and Download Multitech MultiConnect Conduit getting started manual online. Base Station IP67. MultiConnect Conduit gateway pdf manual download.

The solution includes a conduit with a LoRa mCard(TM), an IP67 enclosure and a LoRa antenna to improve outdoor range. It also offers cellular 4G LTE or Ethernet backhaul options.

LTE Cat 1 Conduit IP67 200 Series Base Station for US & Canada IP67 Conduit for Outdoor LoRa<sup>®</sup> Deployments (MTC DTIP2 Series)

mPower<sup>™</sup> Edge Intelligence embedded software delivers programmability, network flexibility, enhanced security and manageability for scalable Industrial Internet of Things (IIoT) solutions.

Built for the toughest environments, the MultiTech Conduit<sup>®</sup> IP67 Base Station delivers secure, reliable LoRaWAN<sup>®</sup> connectivity for outdoor and industrial IoT deployments.
