

## Latest on photovoltaic panels damaged by wind

As climate change intensifies, solar power plants are increasingly exposed to high-wind events that can severely damage photovoltaic (PV) panels, solar trackers, and heliostats.

Visit BBC News for the latest news, breaking news, video, audio and analysis. BBC News provides trusted World, U.S. and U.K. news as well as local and regional perspectives.

Super Bowl 2026 predictions: Who will win, Seahawks or Patriots? Who will win MVP? Are Browns fans staying local to the AFC in their Super Bowl predictions? See who Cleveland picked between New...

In Physics of Fluids, by AIP Publishing, researchers at the Centre for Material Forming at PLS University in Sophia Antipolis, France, proposed a unique numerical decision-making framework ...
