

Last month, at the Guyana Energy Conference and Supply Chain Expo, we showcased the success we've had in Guyana to date and discussed the projects we have planned for the future.

Ukrainian lithium iron phosphate energy storage power station On February 8, 2025, a Ukrainian manufacturing facility successfully commissioned a 250kW/600kWh industrial energy storage system to optimize power ...

But here's the kicker: Guyana's planning something bigger. With the Energy Storage Battery Forum 2025 just 18 months away, this small South American nation is positioning itself as the region's clean energy laboratory.

In February, Guyanese Prime Minister Mark Phillips confirmed that the project is set to begin operations on November 1. He has since confirmed that the facility is expected to be completed in the ...

In this particular area, Guyana Strategic Minerals (GSM), in partnership with Greenpower Energy (GPE), was granted permission to conduct geophysical and geological surveys in 2016, for the purpose of prospecting ...

Guyana's landmark Gas-to-Energy project reached a critical milestone with the arrival of a 30-MW backup battery energy storage system (BESS) at Georgetown's John Fernandes Wharf, according to OilNOW. [pdf]

Meta Description: Explore how Guyana leverages lithium energy storage to transform its power grid, featuring real projects, tropical climate hacks, and economic impacts.

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.

In 2023, Guyana's hinterland town of Lethem launched a 1.5 MW solar farm paired with a 4 MWh lithium-ion battery. Result? 24/7 power for 3,000 residents--no more diesel generators!

I have my own factory in our country and we will ask GSL energy to send us related components locally and we will have engineer to install them to save import tax at least 90%.
