

It has a capacity of 580W, which is a very high figure for 2024. The efficiency of the solar panel is very high and amounts to 22.5% when paired with an inverter, allowing it to be effectively used to ...

Description Longi Solar Panel Hi-mo 7 Bifacial 580M Features: Based on M10 wafer, best choice for ultra-large power plants Cutting-edge technology delivers superior module power and efficiency ...

Excellent Performance: Hi-MO6 with higher bifaciality (80%), better power temperature coefficient (-0.28%/?) and lower module operating temperature. Reliability: Hi-MO6 bi-facial module with better ...

Description Longi Solar Panel Hi-mo 7 Bifacial 580M Features: Based on ...

The Longi 585W 144 Cell Solar Panel is suitable for various installation environments. It can be used in both residential and commercial settings, whether rooftop installations, ground-mounted systems, or ...

Key features include advanced M10 wafer technology, dual glass construction, and Hot 2.0 technology for enhanced reliability and PID resistance. The panel is built to withstand high mechanical loads, ...

They are available in 72-cell, 66-cell, 60-cell, and 54-cell configurations, making them adaptable to a wide range of photovoltaic systems. The LR5-72HTD model is based on M10 wafers and is a great ...

Identification Brand LONGI Product Code LR5-72HTH-580W Design & Mechanical Specification Panel Type Bi-facial Panel Surface Standard Panel Weight 27.5 Kg Panel Length ...

LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products.

With an impressive power output of 580W and an efficiency of 21.5%, this panel provides excellent energy generation even in low-light conditions. It features 144 half-cut cells and utilizes Hybrid ...

Explore the Longi Hi-Mo6 580W Solar Panel featuring 22.2% efficiency and durable construction. Perfect for high-performance solar setups with customizable cables and IP68 protection.
