

Romanian transmission system operator Transelectrica has announced a tender for a battery energy storage project with a 35MW power output and 70 MWh storage capacity. [pdf]

The Majuro battery energy storage system represents a critical step toward achieving energy resilience for island nations. As renewable energy adoption grows globally, storage solutions are no longer ...

“Energy storage isn't just about technology - it's about creating resilient communities,” emphasizes EK SOLAR's Project Director. “That's why we focus on solutions that empower local populations while meeting ...

Latest developments in solar power technology, energy storage advancements, farm power solutions, and industry insights from our team of renewable energy experts.

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant step forward in modernizing ...

The Republic of Maldives has launched a tender process, seeking to procure battery energy storage systems (BESS) in an energy transition project supported by Asian Development Bank (ADB) funding. [pdf]

Bahamas Power and Light Company Limited (BPL) will leverage a battery energy storage system supplied and installed by Finnish firm Wärtsilä; to optimise the operations of its Blue Hills Power Station in Nassau. [pdf]

As remote locations like Majuro transition to renewable energy, modular MW-scale storage containers have become critical infrastructure. These systems act as “power banks” for island grids, storing solar/wind ...

MUSCAT: A new solar PV based Independent Power Project (IPP), set to come up at Ibri in Al Dhahirah Governorate, is expected to be integrated with utility-scale battery storage in a first for Oman's rapidly ...
