What is a DIY solar generator?

A DIY solar generator is a self-contained and portable mini-power plant that can allow you to be 100% independent from the grid. Let's look into a few reasons why you should build a DIY solar generator for camping or off-grid living. With zero emissions, solar generators are far more environmentally acceptable than those running on fossil fuels.

Can I build my own off-grid solar power system?

Building your own off-grid solar power system can feel intimidating--but with the right info, it's totally doable. Take your time, start with a modest system, and enjoy the process. The freedom of producing your own power is well worth the effort. For more DIY off-grid tips and gear breakdowns, check out our full DIY Solar Guide archive.
