

Qair has secured a loan from SBM Bank to build 60 MW of hybrid solar and storage projects in Mauritius, supporting the nation's goal of 60% renewable power by 2030.

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid solar photovoltaic and battery ...

Qair has announced the closing of a new loan to support the implementation of a hybrid solar photovoltaic and battery energy storage system project in Mauritius.

This paper presents a compact rectenna integrated with a packaged solar cell to convert a hybrid (solar + electromagnetic) energy to DC energy. The packaged solar cell used as the substrate is sandwiched between ...

Renewable energy developer Qair has secured financing from SBM Bank (Mauritius) Ltd for its StorSun I and II hybrid solar-plus-storage projects. These two projects are part of a larger 60 MW portfolio of ...

Qair International, a prominent French independent renewable energy producer, has successfully closed the financing for its 60 MWp hybrid solar and storage project in Mauritius.

French renewable energy company Qair has signed a new loan to support the implementation of a hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius.

The Central Electricity Board (CEB) of Mauritius has opened a tender for grid-tied, roof-mounted hybrid solar systems. According to available tender details, the solar systems will have a...

This article explores bidding opportunities, technical requirements, and market trends for solar-plus-storage projects in Mauritius, with actionable insights for global investors and contractors.
