

The aim of this study is to identify the green mobile telecommunication base station design practices as adopted by leading cases, four cases were analyzed; Ericsson, ZTE, Huawei, and Bharti.

Dec 22, 2023 Abstract This document stipulates the terms and definitions of green and low-carbon services for communication base stations, the scope of classification for green and low ?

Base stations are required to enable mobile phone communication, including calls and data transfer. They consist of different electronic components and antennas and can be located on masts, on ...

Several techniques have been deployed to reduce the energy consumption of the base station in what is called a green base station. This paper presents an insight into these approaches and ...

YD/T 6717-2025 English Version - YD/T 6717-2025 Technical specification for green-design product assessment - Base station (English Version): YD/T 6717-2025, YD 6717-2025, YDT 6717-2025, ...

Std ID Description (Standard Title) Detail YD/T 3048.1-2016 (Communications products carbon footprint assessment technical requirements - Part 1: Mobile handset) YD/T 3048.1-2016 ...

Step 1: Add YD/T 6717-2025 to Cart -> Step 2: Go to Cart -> Step 3: Go to Pay -> Step 4: Get YD/T 6717-2025 via email in 1~3 business day
