

Adopting modularized PCS, it is easy to maintain and expand capacity, and the outdoor cabinet adopts front maintenance, which can reduce the footprint and maintenance access, and is characterized by ...

The 100kW 256kWh Outdoor ESS Cabinet is an advanced, all-in-one lithium battery energy storage solution designed for off-grid power systems, remote industrial sites, microgrids, and commercial ...

The intelligent air cooling system in the HighJoule 100KWh Outdoor Cabinet Series ensures optimal thermal management, maintaining battery efficiency and longevity. It adapts to varying environmental ...

Stay powered up off-grid with rugged gear built for the Outback. The Redarc Alpha 100 R quickly charges big battery banks, runs your setup, and lets you jump a dead starter battery from your phone.

All-in-one 50kW/100kWh ESS cabinet for solar storage, backup, and peak shaving. Outdoor-rated, air-cooled, and easy to install with full EMS control.

Our system is versatile, compatible with 400V grid systems, and supports a range of applications including peak-shaving, demand control, backup power, and frequency regulation.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

HiTek Hybrid system is a combination of solar energy storage with grid connection. It has battery backup to store power and has the ability to feed surplus electricity into main grid.

The Topdriver Outdoor Energy Storage Cabinet is made of metal, and is designed to store solar energy and provide long-term reliability. It is compatible with Ethernet, RS485, and Modbus protocols, and ...
