

National Strategic Planning for New Energy Storage

Energy storage resources have become an increasingly important component of the energy mix as traditional fossil fuel baseload energy resources transition to renewable energy ...

The U.S. Department of Energy on Dec. 20 released its draft energy storage strategy and roadmap, a plan that provides strategic direction and identifies key opportunities to optimize DOE's ...

Today, the U.S. Department of Energy released its draft Energy Storage Strategy and Roadmap and a Notice of Availability seeking stakeholder input on the draft Strategy and Roadmap.

In line with ESA's vision of 35 GW of new energy storage by 2025, ESA must also grow to meet the challenges of an expanding market. In this strategic plan, ESA focuses on 7 core areas of growth to ...

In December 2020, DOE released the ESGC Roadmap, the Department's first comprehensive energy storage strategy to develop and domestically manufacture energy storage technologies that can ...

The whitepaper outlines policy recommendations to open markets for storage development, build financial support, grow a domestic storage supply chain, and progress long-duration storage ...

The US Department of Energy (DOE) has released its draft Energy Storage Strategy and Roadmap (SRM), a plan providing strategic direction and opportunities to optimise DOE's energy ...

The Department of Energy's (DOE) Energy Storage Strategy and Roadmap (SRM) represents a significantly expanded strategic revision on the original ESGC 2020 Roadmap.

This EPRI Battery Energy Storage Roadmap charts a path for advancing deployment of safe, reliable, affordable, and clean battery energy storage systems (BESS) that also cultivate equity, ...

The U.S. Department of Energy (DOE or the Department) seeks public comment to inform development of its Energy Storage Strategy and Roadmap (SRM).
