

The U.S. Department of Energy (DOE) is now accepting applications for its Community Microgrid Assistance Partnership (C-MAP) initiative, which aims to help remote, rural and electrically isolated ...

We can help you build a more resilient, efficient and sustainable energy infrastructure by developing a microgrid system suited to your specific needs. We also offer microgrid project financing for an end-to ...

Microgrids, localized energy grids that can operate independently from the main power grid, are garnering increasing attention as a sustainable and resilient energy solution. The initial ...

Data center operators and other major power users are fuelling a new wave of microgrid investment as they seek access to reliable power supplies that can be developed swiftly.

In fall 2019, the National Association of Regulatory Utility Commissioners (NARUC) and the National Association of State Energy Officials (NASEO) initiated a joint Microgrids State Working Group ...

The proposed tariffs enable microgrids and support affordability in a number of ways: Comply with the guidelines set by Senate Bill 1339 (Stern, Stats. 2018, Ch. 566), which requires the CPUC to facilitate ...

As policy support, the Chinese government has stipulated that new energy generation projects within microgrids should be included in subsidies from the Renewable Energy Development ...

WASHINGTON-- The U.S. Department of Energy (DOE) Office of Electricity today announced more than \$8 million in selections for funding to projects that accelerate microgrid ...

The market for renewable energy-based microgrids is undergoing rapid change, driven by headwinds from government incentives, increasing complexity, and funding constraints.

In this study, we investigated the optimal subsidy level for governments to correct the market failure of microgrids and analyzed the impacts of regulation on the interaction between a ...
