

How many people in eastern DRC will have access to electricity?

As a result, over 28,000 households and businesses in eastern DRC will have access to more affordable and reliable electricity. "Though it was a complicated transaction, MIGA worked diligently to innovate and provide guarantees to de-risk this mini-grid investment," said Jessica Stiefler, Senior Underwriter and Distributed Energy Lead at MIGA.

Does DRC have a mini-grid strategy?

The World Bank Group is working with the government on DRC's strategy on mini-grids and increased focus on delivering mini-grids at scale in the country.

Is a solar minigrid in Goma a beacon of Hope?

A solar minigrid in a Goma neighborhood where almost everyone lacked access to electricity just five years ago offers a flicker of hope despite widespread poverty and the city's violent takeover by Congolese rebels early this year. (AP Video by Justin Kabumba. Produced by Juli Trejo Bax)

Is off-grid solar power a 'cornerstone of Africa's Energy Future'?

About 565 million people in Sub-Saharan Africa lack electricity -- representing about 85% of the global population without power. This makes off-grid solar power a "cornerstone of Africa's energy future," especially in rural areas, said Stephen Kansuk, the United Nations Development Programme's regional technical advisor for Africa.

The Democratic Republic of Congo (DRC), roughly the size of Western Europe, is the largest country in sub-Saharan Africa. But with an electrification rate of just 19%, 77 million people ...
