

For many years, we've curated the Sustainability Hub at Outdoor -- now evolving into Sustainability Solutions. Especially in times like these, it feels more important than ever to stand together as an industry.

Our Solar Retrofit Power Hub is an outdoor off-grid power source that integrates with existing outdoor bus stations and whenever an off-grid power source is needed to provide access to 100% solar energy.

Alexandra Denker from Messe München and Cira Riedel from GreenroomVoice explain in an interview how the industry will find answers to this question in the Sustainability Hub at OutDoor by ISPO 2023.

With more than 600 exhibitors in three halls, over 5,000 square metres of outdoor space, three hubs and three stages, this year's OutDoor by ISPO demonstrated its ongoing relevance, despite the diverse ...

Search among 26 authentic outdoor solar power hub stock photos, high-definition images, and pictures, or look at other high tech or solar panels stock images to enhance your presentation with the perfect visual. ...

Discover key trends from ISPO Munich 2024 and explore the future of the outdoor industry. Focus on innovation, sustainability, and health as we look forward to 2025.

Together, they will deliver a reimagined ISPO that blends data-driven decision-making with community-driven purpose - ensuring the event once again serves as the beating heart of the industry it ...

Sympatex, the leader in sustainable and recyclable membranes, announces its participation in the Sustainability Hub at Outdoor by ISPO 2024 at Trade Fair Center Messe München.
