

We focus on the sale, manufacture and installation of heat pumps, solar systems, photovoltaic power plants and underfloor heating for family homes and commercial buildings.

Our portfolio includes products from 8 manufacturers, suitable for smaller (100 kWh) and larger (1 MWh and above) installations. Our international team has more than 10 years of PV experience and is ...

Our solar power and renewable energy solutions help make clean energy accessible to everyone. We design, build and manage PV power and storage systems for rooftops and other property. We deliver ...

The company specializes in the design and installation of photovoltaic power plants, allowing clients to generate their own electricity from solar energy. They also provide energy audits and promote ...

This article presents three of the most important PV-installers from Prague, Czech Republic and gives information on their focus area.

Areas to the east of Prague are particularly well-suited for large-scale solar PV installations due to their flat terrain and high levels of direct sunlight. The nearby towns of Touzim, Kladno, and Benesov also ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

new subsidies from Modernization Fund (Komunerg Subsidy Program) covering 70% of OPEX will create a new PV market of 1,5- 2,0 GW by 2030 (city of Prague plans 800 MWp of PV ...

We design and build "turnkey" photovoltaic power plants that use modern technologies and allow households, companies or government institutions to generate their own electricity.

Explore current solar capacity, surge in rooftop PV, future growth projections and market opportunities in Czech Republic's solar sector.
