

With 150% DC input oversizing, 110% AC output overloading capability, it drives your inverter to its full capacity by adding extra reflections from the backside of bifacial panels, to increase your power ...

GoodWe provides diversified products for both residential and commercial solar energy systems in North America, facilitating households and businesses to harvest maximum solar energy and reduce their ...

Plug a communication module into the inverter to establish a connection between the inverter and the smartphone or web pages. The communication module can be a Bluetooth module, WiFi module, ...

Equipped with 2 MPPT and 3 string inputs, the GW20K-SDT-30 inverter is capable of handling a wide range of solar panel configurations, enabling optimized power generation no matter the condition.

The SDT G2 series inverter of Jiangsu GOODWE Power Technology Co., Ltd. (hereinafter referred to as GOODWE) strictly conforms to related safety rules in design and test.

Being light-weight, highly-efficient and low-cost, GoodWe residential grid-tied solar inverters are designed to be simple to install, operate, and maintain, so as to ensure a quick return on investment ...

As part of the SDT G3 Series, it delivers high-performance energy solutions with advanced safety features and flexibility to adapt to challenging installation scenarios. Wide Power Range: Covers ...

The GOODWE GW20K-SDT-20 three-phase inverter, utilizing its two onboard MPPTs, ensures a high level of efficiency for the photovoltaic system.
