

EK SOLAR specializes in grid-scale storage systems with 18 completed projects across Europe. Our modular designs adapt to diverse climate conditions while meeting strict EU energy regulations.

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's ...

Swiss engineers are converting excess summer solar into hydrogen stored in repurposed natural gas caverns. Come winter, this becomes heating fuel - solving the seasonal mismatch that ...

We are pleased to work with a leading clean energy financier like MW Storage. Together, we are driving the global energy transformation by developing innovative commercial structures that make energy ...

Switzerland's latest battery energy storage system (BESS) entrant has hit the ground running, with two 2 MW projects with Schindler and Energie Wettingen either live or underway.

Both projects are located in the Platti industrial district of Gurtellen in the Uri canton. Axpo and energieUri have partnered from the initial concept to the construction phase.

Through this new partnership, Alpha Energy Swiss SA aims to accelerate the deployment of flexible energy storage systems that will enhance the resilience and efficiency of the Swiss energy ...

Detailed info and reviews on 10 top Energy Storage companies and startups in Switzerland in 2026. Get the latest updates on their products, jobs, funding, investors, founders and ...

Battery storage systems are crucial for the energy transition. Find out how Swissgrid is driving forward their integration into the grid.

SwissSTES aims to reduce Switzerland's dependency on fossil fuels by pioneering seasonal thermal energy storage (STES) to become a net-zero carbon society. An interdisciplinary consortium ...
