

Available in three sizes for electric vehicle charging or commercial level power, the cabinet has panels of UHPC whose compressive strength exceeds 15,000 psi and robust nature ...

Installs a BTM energy storage system at TCC's Hoping Plant in Eastern Taiwan to provide supplemental operating reserve services, which was the largest site joined in the electricity trading platform in ...

TCC combines the company's strength in green energy, energy storage, battery and cement to build an energy storage system (ESS) to provide stable electricity and reduce carbon ...

The TCC cabinet will initially be launched in Taiwan, where the government has set a target of achieving 20% renewable energy generation by 2025. The cabinet will be deployed in various locations, ...

Paris, 16 April 2024 ??? NHOA Energy, the company of NHOA Group dedicated to energy storage, successfully commissioned the over 120MWh energy storage project for Taiwan Cement Group ...

On the October 18th, TCC will make its debut at Energy Taiwan, the largest annual energy event in Taiwan, to showcase "EnergyArk," the world's first patented "Ultra-High Performance Concrete ...

Temperature sensors and smoke detectors are installed for comprehensive monitoring within the energy storage cabinet. Anomalies are detected using our in-house developed EMS system, which ...

Constructed with ultra-high performance concrete (UHPC), EnergyArk offers fire resistance, heat resistance, and high-strength characteristics, distinguishing it from traditional metal ...

Why do we need advanced energy storage technology? Our advanced energy storage technology is not just responding to, but anticipating the growing demand for integration, thereby enhancing grid stability ...

The UHPC energy storage cabinet provides Taiwan's first DC-DC charging infrastructure for a symbolic store opened in July 2022 in Taiwan by one of Asia's largest convenience store companies.
